looked up and noticed a black Ford F 150 truck. The driver of this vehicle was also honking his horn and flashing his lights. I pulled up and spoke to the driver of this motor vehicle, a white male. I could hear the sound of metal striking metal or masonry. The male indicated the naked male was behind me by pointing to the east. I looked out of the side window of the SUV and noted a partially naked male, from the waist up, standing an unknown distance away.

I exited the cruiser and walked to the rear. I noted Cst Williams had arrived and was also exiting the cruiser. I rounded the corner of the SUV (Ford Explorer 19-672) and noted a flash of movement. A male was in front of me waving a metal pole. The male held the pole as if he was preparing the walk to the plate in a baseball game. The male was screaming 'Come on?.Come on'. I feared for my safety and drew my service issued Glock. I pointed it at the male and issued the Police Challenge ?. 'Police Don't Move'. Subsequent demands were issued to drop the weapon and for the male to get on the ground.

The male began to move towards me still holding the weapon in his hands in an upright position parallel to his torso. The metal pole resembled a spindle off of a railing and was bent. I felt the threat to my safety was imminent as the male was moving closer. I discharged my pistol and it appeared the round had no effect as the male continued to approach. A second round was fired and the male bellowed a loud scream and doubled over. The male began to crawl towards the centre of Dring St and was still in possession of the metal pole. I covered Cst Brown and Williams as they approached to handcuff the male. Once the male was in custody I re-holstered my sidearm. A request was made if I had emergency blankets in the cruiser. I located two and covered the male. A/Sgt Dunlop arrived and directed me to attend 19 Division with Cst Corby Wright.

I had no further involvement or interaction with the male.
