DOMESTIC-INTIMATE NO CHARGES

At 1023HRS. I arrived on scene.

I observed a nude male, white, brown hair, by the front porch of 7 Dring Street. The male was holding steel patio furniture legs in his hands and immediately began walking towards my cruiser, at what I would describe as a marching pace staring directly in my direction. While proceeding down the driveway the male dropped most of the steel on the ground. He remained with a single leg in his hands and cocked it like a baseball bat, staring at me, continuing towards my front passenger door. I was fearful based on his actions and demeanor that he was going to open my car door or hit my cruiser which caused me to lock the vehicle's doors.
